

CO PERINATAL MENTAL HEALTH & SUBSTANCE USE CONSULT LINE

Benefits of Registering with PROSPER

- **Expedite your consultation requests!**
 - Practice and clinician names and contact info will already be in our database
 - Track or follow up on previous consultations
 - Help PROSPER better understand your clinic to offer the best recommendations for care.
- Practices will have early access to educational opportunities and resources from the PROSPER team.
- At any time after the registration meeting, we are happy to schedule the following:
 - Meet with the PROSPER team to talk through the status of mental health and substance use screening methods and supports in your practice. Enhance your teams' screening, treatment, and resources for perinatal patients.
 - Lunch & Learn type Zoom or in-person meetings about specific topics, such as; depression, anxiety, bipolar disorder, psychosis, OCD and intrusive thoughts, sleep in the perinatal period, psychiatric emergencies and safety assessment, substance misuse screening and treatment, cultural considerations and health equity topics.
- Help to ensure that the PROSPER Program has sustainable funding by demonstrating the value and use of the program by healthcare clinics across Colorado.
- Practices registered with PROSPER demonstrate their commitment to addressing perinatal mental health and substance use conditions as part of routine care.
 - Improve care with access to resources for therapy and peer support.

**We do not require prescribing providers to register for Colorado PROSPER prior to accessing consultation*
